MEMORANDUM

To: Ray Gosack, City Administrator
From: Wally Bailey, Director of Development Services
Date: April 15, 2012
Subject: Planned Zoning Districts

The Unified Development Ordinance (UDO) currently provides for three (3) methods to apply for a rezoning of property. The current methods include (1) conventional rezoning with a development plan (2) conventional rezoning with a deferral of a development plan and (3) a planned development district.

The preferred or requested method by staff and planning commission has been a rezoning with a development plan. With the sensitivity and controversy of most rezonings, details of a proposed development are needed to justify the rezoning application. The UDO requires a thorough and detailed development plan be submitted. which requires many design decisions be made early in the process.

Some developers have expressed concerns about the requirement to submit such a detailed development plan for the conventional or planned development district. This was especially problematic on larger developments such as subdivisions, projects with multiple phases or annexations.

The PZD process allows a developer to propose a hybrid zoning district for a development that may not fit well into one of our existing zoning districts. A PZD cannot include any design requirements or development standards less than those found in the UDO.

The PZD does not replace any of the current rezoning methods. It is merely another process or tool by which a developer or property owner could secure a rezoning.

After some research, we found other communities in Arkansas and the region have an additional rezoning method known as a planned zoning district (PZD). This rezoning method provides a little more flexibility by permitting a rezoning application to be submitted without significant expense of a completely detailed development plan.

In lieu of a thorough and detailed development plan, the PZD requires a project booklet describing the many facets of the proposed rezoning and the development project. While the project booklet can contain some thorough and detailed information it can also include conceptual information that helps describe the project.

The Planning Commission and Board of Directors have the option of approving, amending or denying the application. In some cases, the Planning Commission or Board of Directors may need to request more specific or detailed information with the individual application.

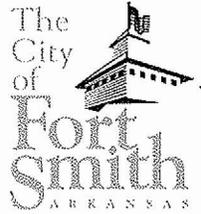

The project booklet becomes an integral part of the property rezoning. All development that occurs following a PZD rezoning approval must comply with the details of the project booklet. Developments that do not comply with the PZD project booklet may require an amended application to be approved by the Planning Commission and Board of Directors.

The proposed amendment to the UDO (*which is enclosed*) includes sections regarding the submittal requirements, the review process, factors to be considered, possible actions by the Planning Commission and Board of Directors, and amendments to the project booklet/plan.

The Planning Commission held several work sessions on this subject with members of the development community invited to each meeting. Participation was good with the development of the proposed PZD amendment.

The Planning Commission voted 8-0 to recommend the amendment to the Board of Directors for adoption. Fort Smith Municipal Code requires the proposed amendment be placed on the Board of Directors May 7, 2013, agenda.

Please contact me if you have any questions.

On April 9, 2013, the City Planning Commission held a public hearing to consider the above rezoning request.

No one was present to speak on behalf or in opposition to these proposed amendments.

Chairman Griffin then called for the vote on the amendments to the Unified Development Ordinance. The vote was 8 in favor and 0 opposed.

When filing the notice of appeal, the applicant shall pay the sum established by the Board of Directors to cover the cost of providing such legal notice.
3. The review shall take place at the second regularly scheduled meeting of the Board of Directors, following the request for review deadline. After the filing of a notice of review, the request may not be withdrawn or the hearing date postponed without the approval of the Board of Directors.

H. Action by the Board of Directors. When the Planning Commission certifies a proposed rezoning to the Board of Directors, the Board shall consider the criteria established in Section 27-330-6(E) and may take any action consistent with Sections 27-310 and 27-311, including:

 - J. **Re-application.** If the Board of Directors denies a proposed preliminary development plan or rezoning application certified to it with the Planning Commission's approval, the applicant shall not be permitted to re-apply for the same or substantially similar request for a period of six (6) months from the date of the action. No such rejected proposal shall be re-submitted, even after the expiration of six months for the consideration of the Board of Directors until it has been resubmitted first to the Planning Commission for consideration.
 - K. **Determination of Re-application.** The Director shall determine whether a re-filed application for rezoning meets the requirements of these provisions and whether the new application is the same or substantially similar to the previous application. The Director may consult with other departments, the Planning Commission, or the Board of Directors in making this determination. Appeals of the Director's determination decision may be made to the Planning Commission.

27-3__-5 Amendments to the Planned Zoning District Plans

Once a PZD has been approved, significant changes may be made only after approval of a revised PZD. 7. Decrease of more than 5% in areas devoted to open space or the substantial relocation of such areas;
8. Changes in traffic circulation patterns that will affect traffic outside of the project boundaries;
9. Modification or removal of conditions and stipulations to the planned zoning district approval; or

B. **Approval.** Any changes that seek to vary the standards of the applicable district and cannot be approved through paragraph (A) above must either be approved by the Planning Commission through a Planned Zoning District rezoning application or through a variance request to the Board of Zoning Adjustment.

C. **Appeal.** Appeal of the Director's determination of whether changes are significant may be taken to the Planning Commission, whose decision shall be final. No further action shall be taken to process the application pending the Planning Commission's determination.

MEMORANDUM

May 3, 2013

To: Ray Gosack, City Administrator

From: T. Baridi Nkokheli, Director

Subject: Residential Sanitation Rate Reduction

During the August 14, 2012 Study Session, department staff presented information regarding residential sanitation rates for various solid waste collection service levels, particularly citywide automation, a hybrid system, and a two tier system. Citywide automation was recommended by department staff along with the possibility of a \$1.10 per month per household rate reduction. As a result of decisions made last year, automated refuse collections were expanded citywide in December 2012. The continued efficiency of our automated solid waste collection program includes our first ever, fully automated collection of residential recyclables, which was implemented on April 29, 2013.

Department staff has recently reevaluated the residential sanitation rate data. As a result of the increased efficiency of automated residential solid waste collections, which provides the ability to better manage the ever-increasing operational costs, staff recommends reducing the monthly residential rate to \$13.28 (current rate of \$14.38 less \$1.10) per month per household. The 2013 Budget accounted for the rate decrease to go into effect on July 1, 2013.

The reduction in monthly fee is only derived as a result of the efficiencies realized since the automated program's inception in 2006. We have instituted fully automated collection of residential recyclables with future plans of automating the collection of yard waste in an effort to buffer escalating future operational costs inherent to solid waste management.

Memo:

To: Ray Gosack, City Administrator
From: Mike Alsup, Parks and Recreation Director
Re: Oak Cemetery Commission membership recommendation

The Oak Cemetery Commission recommends that the membership be reduced from nine (9) members to seven (7) members. The Commission was originally formed with seven (7) members and was enlarged to nine (9) and then to eleven (11) members in an effort to provide more help with Tales of the Crypt and to have a quorum at the meetings. The additional members have not led to the anticipated results with no official business conducted at many meetings due to lack of quorum or additional help at Tales of the Crypt. Therefore, the Commission makes the recommendation to return to the original number of Commission members.

Oak Cemetery is a thirty acre facility under the perpetual care of the City of Fort Smith. The City Clerk's office maintains the records and oversees the business functions of the cemetery while the Parks Department is responsible for the maintenance of the facility. Oak Cemetery is recognized as a National Historic Landmark based on over 150 years of documented history. The City and Commission's purpose is to preserve and maintain uniformity, harmony, and beauty of the Cemetery, and to safeguard each lot or grave with sanctity, and to protect and provide for the future welfare of the Cemetery.

The Commission serves an important role in making recommendations concerning the Cemetery. Please call me if you have any questions about this matter.

A RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE AN AGREEMENT FOR PROFESSIONAL SERVICES WITH MAHG ARCHITECTURE, INC. FOR THE BELLE GROVE CENTER

BE IT RESOLVED BY THE BOARD OF DIRECTORS OF THE CITY OF FORT SMITH, ARKANSAS, that:

The Mayor is hereby authorized to execute an agreement for professional services with MAHG Architecture, Inc. for the Belle Grove Center for an amount not to exceed \$25,225.00.

Memo:

May 3, 2013

To: Ray Gosack, City Administrator
From: Mike Alsup, Parks and Recreation Director
Re: Belle Grove Center renovation, program development phase

Belle Grove Center requires renovation before opening to the public. Statements of Qualifications were reviewed for architects to perform this work, three firms were interviewed, and MAHG was selected by the committee. The selection was based on MAHG's vision for the project both in the use and operability of the facility as well as technical expertise and experience with renovations of this type. Their vision of the usefulness of this facility to the community and its ultimate end use were the factors that most influenced this decision.

It is recommended that the programming to preliminary concept phase be approved. The programming phase is critical in understanding the anticipated uses of the building so that the renovation will reflect the uses. Until this is determined, a scope cannot be determined for further stages of the plan through construction documents. MAHG's fee proposal is an amount not to exceed \$25,225. The fee includes compiling data from a questionnaire, a vision workshop and a programming work session to establish project objectives, a facility space program, and a conceptual plan to be presented at a public meeting. The Community Leadership class at the University of Arkansas, Fort Smith selected the Belle Grove Center as its project for this semester and has been working on a program for the facility. They have interviewed citizens, toured the facility, and researched programming for similar centers. It is anticipated that the class's work will be the foundation for the programming phase of planning which may reduce the final cost of the phase.

With approval of the preliminary concept, a decision can be made to proceed to construction drawings through another contract for those services. Also, with the concept in hand, seeking funding for the project can begin. It is anticipated that funding will be sought through grants, foundations, and private sources to supplement funding through the sales and use tax. The anticipated timeframe for construction on this project is more than five years away but could be accelerated with a successful campaign.

If you have questions about this contract or about the project, please call me.

Re: Agreement with Fort Smith EMS

Fort Smith EMS asked to house and operate a unit from Elm Grove Community Center in Martin Luther King Jr. Park. This is considered a public safety enhancement for the city with a shortened response time on the north side of the City being the goal. The space requested in the Center was designed for use by the Fort Smith Police Department. The Police Department does not use this space at this time.

The initial plan is to use this space from 8:00 a.m. till 8:00 p.m. seven days per week year round with the option to add the night shift later. The Police Department's presence in the Center had a positive influence on the park and neighborhood; it is anticipated that the EMS unit will have a similar influence. The office has its own outside entrance, and a parking space will be designated for the ambulance next to the building. The unit will be plugged into an electrical outlet on the outside of the building to power the unit while not in use.

With approval of the agreement, the staff will work with EMS to move into this space. If you have questions about this agreement, please call me.

SUBJECT: American Red Cross Lease
DATE: May 2, 2013

You will find attached a resolution to authorize a new lease agreement between the City of Fort Smith and The American National Red Cross. This agreement is to replace the existing lease scheduled to expire in December of 2013.

Due to the improvements the Red Cross wants to make to the building, they would like to have the assurance of a long-term lease before they invest in the building and to take advantage of the weather as well.

We have negotiated a 15 year term lease agreement. You will also find attached a letter from Mr. John Layson, COO, Little Rock Region that further details the types of improvements to be made and the anticipated cost.

Please let me know if you should have any questions.

Mr. Alie Bahsoon
Purchasing Manager
City of Fort Smith
Fort Smith, AR 72902

Dear Mr Bahsoon:

The American Red Cross has leased the site at 1701 S. Greenwood Ave. for almost 30 years. We would like to renew our lease so that we can continue to provide our services to Fort Smith and the surrounding communities. Once our lease agreement has been approved by all appropriate parties, we plan to spend approximately \$50,000 to repair and upgrade the site. We are contracting with a local construction company to perform this work.

Due to the design and location of construction of the building on the site, it has suffered from water damage due to flooding from water draining from the surrounding areas, particularly at the rear. Most of the expense will be to repair the water damage to the building and to make to drainage design changes to reduce the potential of future flooding. There will be repair and replacement of the concrete between the Red Cross building and the EMS building next door. The stairs leading from the rear of the site to the alley will be removed. The HVAC system will also be replaced and other minor repairs made to the building. The need for mold remediation will also be evaluated and performed if possible or a plan developed if extensive.

The support of the City of Fort Smith in the past and in the future with our efforts to provide humanitarian services is greatly appreciated.

Sincerely,

A handwritten signature in blue ink that reads "John Layson".

7. Lessee will pay all utilities and maintenance costs for the Premises.

8. Lessee agrees to make the conference room of the Building available for public use without charge. Scheduled use of such conference room will be reasonably controlled by Lessee.

17. Lessee, at its expense, shall keep, throughout the Term: (a) commercial general liability insurance, with minimum limits of liability not less than \$1,000,000 per occurrence and with respect to Lessee's obligations under this Lease Lessor is named as an additional insured; (b) property insurance (at full replacement value) on (i) any Alterations made by Lessee, naming Lessor as loss payee, as its interests may appear, and (ii) at Lessee's option, on Lessee's contents, trade fixtures, equipment, furnishings; and (c) worker compensation insurance covering Lessee's employees in statutory limits and employers liability coverage with at least the following limits, \$250,000 per accident, \$500,000 per disease and \$250,000 per disease (each employee). Interoffice Memorandum

TO: Ray Gosack, City Administrator
COPY TO: Baridi Nkokheli, Director of Sanitation
FROM: Alie Bahsoon, Purchasing Manager
SUBJECT: Landfill Bulldozer Purchase
DATE: May 2, 2013

In December of 2005, the Board of Directors approved Ordinance 93-05, thereby authorizing the city to participate in the State Cooperative Purchasing program. This process has enabled us to take advantage of other negotiated contracts that the State of Arkansas currently participates in.

One of these contracts is the National Joint Powers Alliance (NJPA), a national municipal contracting agency offering national contract purchasing solutions by facilitating and awarding national competitively bid contracts. Because of their contract, local governments nationwide are permitted to purchase through their cooperative purchasing program.

The Sanitary Landfill Division of the Department of Sanitation (Program 6305) has budgeted \$500,000 for this purchase for which funding has been appropriated for in the 2013 City Budget in the "Planned Purchases for 2013-Sinking Fund Account." Because of the NJPA contract (No. 060311), bids were not solicited and we are therefore acquiring this bulldozer from J.A. Riggs Tractor Company of Fort Smith in the amount of \$568,124.10. You will find attached a memorandum from the Department of Sanitation with additional information about this purchase and the unit to be traded in.

Please be advised that this purchase fulfills all of the purchasing obligations as mandated by both state and local purchasing requirements; I am therefore recommending that the enclosed resolution be approved.

Please let me know if should require any additional information.

MEMORANDUM

To: Ray Gosack, City Administrator

From: T. Baridi Nkokheli, Director

Subject: Landfill Dozer Purchase

One of our landfill dozers, an essential piece of landfill equipment, has experienced a catastrophic engine failure. Asset 93, a 1993 Caterpillar D7H (waste handler package), has been used for 18,511 machine hours. In addition to the costly engine failure, the unit's torque converter overheats, the transmission is slipping and needs rebuilt/replaced, the track adjusters are worn out, the hydraulic pumps are weak, and the wear items (e.g. bushings, bearings, trunnions) require replacing or repair. Since 2007, expenditures associated with the repair of asset 93 and rental for a replacement unit during downtime have exceeded \$458,000. Department staff believes the cost of the needed repairs and the age of the equipment warrants replacement. Overall, the unit is well beyond its useful life in solid waste management.

We are requesting to purchase a new replacement dozer under the National Joint Powers Alliance (NJPA) Contract (#060311-CAT) for \$568,124.10 (\$583,374.10 sell price less \$15,250 trade allowance for asset 93). The Caterpillar D7EQ (waste handler package) is a heavy-duty machine with specialized guarding and seals designed specifically for solid waste handling applications and harsh landfill environments. The unit also utilizes an electric drive system which helps reduce overall operating costs and cleaner emissions (meets U.S. EPA Tier 4 Interim/EU Stage IIIB emissions standards). We expect the new unit will require between 30 - 50% less fuel than what was required for asset 93.

Funding for the purchase is available in the landfill equipment reserve within the sanitation sinking fund.

Please contact me should you have any questions or would like additional information regarding this request.

I would be very interested in being part of Fort Smith's Comprehensive Plan Steering Committee.

As a 35 year resident of Ft. Smith, I have a love for the city, the people, and the culture, and I feel that Fort Smith has great potential for future growth and prosperity. I would like to 'give back' to the community that helped raise me by contributing my ideas and experience to a team of thoughtful people who have the future well-being of Ft. Smith in mind.

My diverse work background includes many successful years in sales, management and strategic planning in both the Media and the Manufacturing fields.

EDUCATION:

My academic background includes 2 years at the University of Arkansas Ft. Smith (in the Westark days) as well as several years at UCA in Conway, where I earned a BBA Degree in Marketing. I am a member of the UAFS Alumni Association.

I have also received extensive professional training of various kinds from Rockwell Corp – Milwaukee Campus, and 3-M Corp-Minneapolis Campus.

I worked for the United States Census Bureau during the 2010 Census , covering the Ft. Smith area, and going through 32 hours of training, and passing extensive US Govt. tests and background checks.

RELEVANT PROFESSIONAL EXPERIENCE:

Positions of leadership and planning that I have held include 3 + years as General Sales Manager for KWHN News-talk Radio from 1997 to 1999 where I supervised sales and creation of new programming, as well as taking part in many, many Ft. Smith community events, political activities, civic events, etc.

Since I had grown up around Manufacturing, (my father was the Plant Manager at Rheem Mfg.) , I went into the Industrial Products Distribution and Manufacturing area. I served from 2000 to 2007 as the District Sales & Business Manager for Briggs Weaver-Hagemeyer Industrial, supervising 25 direct reports in Arkansas & Oklahoma and taking part in Long-term strategic planning for the integrated needs of major corporations like Falcon Jet, Cloyes Gear, Baldor, Kimberly Clark and many others.

I am currently an Account Manager for Rexel Electrical, the industry's largest electrical products and services company. I serve the Western Arkansas / Eastern Oklahoma area.

My current position allows me to set my own schedule, which makes it easy for me to attend any meetings, events, etc. related to being on this committee, and allows me to perform any additional duties that may arise.
