C008078-041026	4/10/2026	Amanda Lankart	<p>I previously submitted FOIA request C008033-040726, for which responsive records were provided on or around April 7, 2026. Based on my review of those records, I am requesting the following additional documents. I request that all records be provided in electronic format where available. REQUEST 1 – SeeClickFix 311 Records: Mosquito Spraying Requests All records in the city's SeeClickFix 311 CRM system related to mosquito spraying requests from March 17, 2026 through the date this request is processed, including for each request: Request number, date, and time submitted The submitting user account name and account type (individual resident account vs. city staff or administrator account) The name or employee ID of any city staff member who submitted, assigned, reassigned, or closed the request Property address associated with the request Any comments or description entered at the time of submission Current status I am specifically requesting records identifying which requests were submitted by city staff or administrator accounts rather than by individual resident accounts, and the identity of the employee associated with each such submission. REQUEST 2 – Do Not Spray / Opt-Out List The current version of the Do Not Spray list as maintained by the Streets & Traffic Control Department, including any version updated after July 30, 2024. Any written policy, procedure, or guidance governing how addresses are added to or removed from the active spray list, and specifically whether city staff may add residential addresses without a direct, verified request from the property resident or owner. REQUEST 3 – Final Spray Zone Map The final, executed spray zone map approved for operational use in the 2026 season, including any version finalized or distributed after the preliminary map shared by Matt Meeker on March 24, 2026. Any written determination, memo, or correspondence from city staff or the City Attorney's Office addressing whether the final spray zone map and/or the active spray request list is consistent with the amended scope of Resolution R-54-26, which limits spraying to public parks and congregation spaces, areas surrounding main waterways, and resident-requested properties only. REQUEST 4 – FieldSeeker GPS Route and Operational Data All records generated by or stored in the FieldSeeker GIS mosquito control software (Frontier Precision) for the 2026 spray season from the date spraying commences through the date this request is processed, including: GPS route data and spray logs showing dates, times, routes traveled, and geographic areas treated by each mosquito truck (Assets 522, 195, and 110) Any reports, maps, or exports generated from FieldSeeker showing spray coverage areas Any correspondence between city staff and Frontier Precision after March 17, 2026 regarding the FieldSeeker renewal, setup, or configuration for the 2026 season I request that this data be provided on a rolling monthly basis as it is generated, or in a single production at the conclusion of the season. REQUEST 5 – NPDES Monthly Operational Reports: Pesticide Use All monthly operational reports submitted by the Streets & Traffic Control Department to Street Engineering or NPDES compliance staff containing data on herbicide or pesticide use, for the period January 1, 2025 through the date this request is processed. Per an internal email from Billy Butler dated March 10, 2026, this data is contained in monthly reports sent to the Engineering Department. Specifically: All 2025 monthly operational reports containing pesticide or herbicide use data All 2026 monthly operational reports (January through date of processing) containing pesticide or herbicide use data The completed 2025 NPDES MS4 Annual Report referenced in internal correspondence on or around March 9-10, 2026 (ADEQ-Annual Report-2025 fina</p>
