The City of Fort Smith's Cross-Connection Control Program requires all Backflow Assembly tests to be performed by a certified Assembly Testing Technician licensed by the Arkansas Department of Health. As a service to our customers a list of active certified testers in the local area is provided. You may also find Assembly Testers listed in the Yellow Pages of the local telephone directory under, "Backflow Prevention Devices & Services", "Plumbing Contractors", "Sprinklers Automatic Fire Commercial & Industrial" and "Sprinklers Garden & Lawn, Installation & Services". The Arkansas Department of Health maintains a list of licensed backflow prevention assembly testers and repair persons that can be found at <http://www.healtharkansas.com/eng/xcon/xconlist0.htm>.

A list of active certified testers in the local area is available on the City's website; [FortSmithAR.gov/Cross-Connection](http://FortSmithAR.gov/Cross-Connection). On the Cross Connection page, choose Tester Technicians. The City of Fort Smith is not associated with Assembly Tester Technicians; therefore, cannot regulate the fees charged and derives no monetary benefit from these fees. It is recommended that you contact multiple Assembly Tester Technicians and compare prices before scheduling a test. **In addition, it is the Customer's responsibility to ensure that the Tester's certification is current, and their equipment has a current calibration. The City of Fort Smith will not accept a test from an expired Tester or a Tester with expired equipment calibration.**

Should you have questions concerning this listing or the City's Cross-Connection Control Program requirements, please contact us.
